## ICWUSA.com is “Made in the USA” – Because It Matters

ASK YOUR CURRENT PROVIDER IF THEY MANUFACTURE IN THE USA

ICWUSA.com is proud to be the leader in customizable “Made in the USA” computer and medical device mounts for the healthcare, dental and IT industries.

The “Made in the USA” label, which means that “all or virtually all” of the product has been made in the U.S., means you can rest assured our products are held to the highest standards of quality and durability. For more about the label types and their meanings, they are outlined and detailed in the FTC’s 42-page document, [“Complying with the Made in USA Standard.”](#)

Ultimately, “buying American” means supporting the people and industries of the United States, and this support has a ripple effect across many areas, including the economy, job market, environmental safety, worker safety, human rights and product quality.
