

Full internal cable management

## Leading the industry in Reach

The T2 w/ Paralink is the premier rigid LCD arm mount with a liftable keyboard tray with wrist rest. This arm allows full cord management from the wall to the monitor and keyboard, and moves as if there are no wires connected. The cables are completely hidden inside the unit, even at the joints. The T2P2020 is 42.5" long. With the monitor tilted forward you have a maximum reach of 61" from the mount to the monitor.

Machined out of billet aluminum, this unit is powder coated gloss white for a durable, lasting finish. Hand assembly ensures that a quality product is shipped to you.

## Highlights

- Accommodates all keyboards and monitors
- Smooth horizontal articulation
- Conceals cables
- 5 year manufacturer warranty
