

Your entire workstation
in the smallest possible footprint

Monitor, keyboard and mouse not included.

The modular Ultra solution

The Ultra LCD and keyboard mounting system is your entire workstation on a wall track. A large variety of options ensure you have a system customized to your particular need.

On the 500I the monitor is mounted below the arms and provides a wider range of tilt. Two handles next to the LCD tighten the LCD into position once tilt adjustment is made. This model is designed to be mounted to a 36" wall track, included with the unit. This model has a 20" by 10" HDPE flip-up keyboard tray with a slide-out mouse tray, which can be folded up when not in use. The keyboard tray on this model is on two articulating arms which can extend it to 34" from the wall.

Vertical Adjust	Screen Rotation	Screen Tilt	Screen Swivel
5" + 31.5"	360°	180°	180°

- Finish*: MW, QG or TB
