

Your entire workstation
in the smallest possible footprint

The modular Ultra solution

The Ultra 510 LCD arm allows the full articulation of the LCD. This 510 folds up and extends 20" from the mount to the LCD, having two articulating 11" arms. Two handles next to the monitor tighten the monitor into position. The monitor can be adjusted 4" vertically on two stainless steel rails. This wall mounted model has a flat flip-up keyboard tray and a slide-out mouse pad tray.

Machined out of billet aluminum, this unit is powder coated gloss white for a durable, lasting finish. Hand assembly ensures that a quality product is shipped to you.
