

ICWUSA.com Product Bulletin

The purpose of the ICW Product Bulletin is to share interesting solutions using ICW products. Watch for new bulletins by issue number and date. Past issues are available on our website: www.icwusa.com/product-bulletins/

VESA Quick Connect (VQC) Plate

This week's bulletin features the VESA Quick Connect (VQC) which allows rapid, tool free, installation and removal of any VESA compatible component.

The VQC is ideal for attaching monitors or all-in-one computers to all ICW VESA mounts, and can be oriented to release side-to-side or out from the top. It also works great as an interface between small form factor computers and ICW rail-type CPU mounts. Since the VQC includes 75mm and 100mm VESA patterns on both the component face and the mount face, it can also be used to adapt from 75mm to 100mm, and vice versa.

For added security, the quick release button incorporates a set screw lock requiring a hex wrench key for release.
